ANASTOMOSIS

an Initiative by **IIT Delhi** and **AIIMS Delhi**

Title sponsored by: **Physics Wallah**

To Register, Visit – anastomosis.edciitd.com

eDC IITD & eDC AIIMS

The Entrepreneurship Development Cell, IIT Delhi (eDC IITD)—

is one of the largest student-run organizations in Asia. It helps young minds **explore new ideas, learn about startups,** and build the confidence to **turn their thoughts into real projects.**

The Entrepreneurship Development Cell, AIIMS Delhi (eDC AIIMS)—

drives **innovation in medicine.** It inspires students to **explore healthcare challenges, develop new medical technologies, and create ideas** that can **impact lives.**

Together,

IIT Delhi and AIIMS Delhi—
India's dream institutes —
give **school students** a chance
to see how **engineering and
medicine come together to
shape the future.**

WHAT IS ANASTOMOSIS

Anastomosis is a one-of-a-kind **national program** designed for school students from **Classes 8 to 12**.

Through this initiative, **selected students get a chance to visit IIT Delhi and AIIMS Delhi**, **interact** with brilliant innovators, and **experience** how new **ideas** turn into **real solutions**.

It brings together the worlds of **engineering** and **medicine** — two of the **most powerful fields** shaping our future.

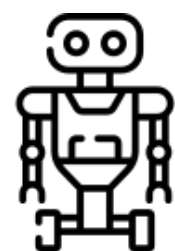

Students from across India get a rare chance to walk the halls of **IIT Delhi and AIIMS Delhi**, see innovation in action, and **get a glimpse of the future they could help create**.

Anastomosis isn't just about learning — it's about **curiosity, discovery**, and **inspiration**.

WHY JOIN?

- Spend 2 exciting days at IIT Delhi and AIIMS Delhi, India's top institutes, and get a rare chance to see **innovation in action**.

attend

Exclusive
**entrepreneurship
bootcamps** designed
especially for young
innovators like you.

meet

Startup founders,
researchers, and
mentors who are shaping
India's future.

explore

Cutting-edge labs
and **innovation hubs**
normally reserved for
top students and
scholars.

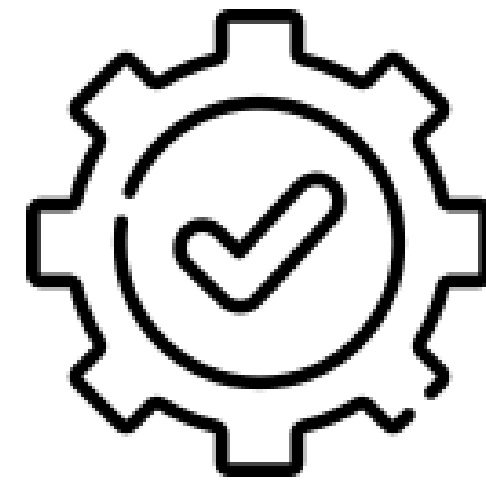

win

Prizes, get mentorship,
and **earn national-
level recognition** for
your talent and ideas.

receive

Prestigious certificates
jointly endorsed by IIT
Delhi and AIIMS Delhi,
validating your
achievement.

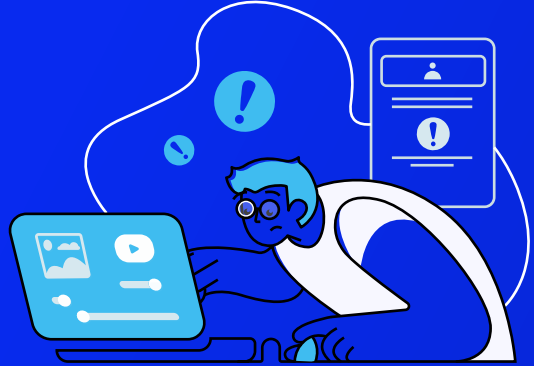

THE JOURNEY OF ANASTOMOSIS

Phase 1:
Registration &
Onboarding

Phase 2:
Online Quiz &
Shortlisting

Phase 3:
Campus Visit &
Bootcamp

Phase 4:
Awards,
Mentorship &
Certification

Phase 1

Registration & Onboarding

Your journey begins here — **register online** and open the door to India's top innovation and medical campuses.

Fill in your details and get ready to take the aspirational online quiz that will test your curiosity, creativity, and problem-solving skills.

Stay updated with program insights and tips through the official portal dashboard.

Highlight: This is your first step toward **national-level recognition and hands-on exposure.**

Highlight: Showcase your talent and **earn a spot among the best young innovators** in the country.

The quiz challenges your **all-round abilities**, from **logical thinking** to **innovative problem-solving**.

Top performers will be selected to experience the **campus visit** and **entrepreneurship bootcamp**.

Gain early exposure to concepts in **entrepreneurship, innovation, and design thinking** while preparing for the next phase.

Phase 2

Online Quiz & Shortlisting

Phase 3

Campus Visit & Bootcamp

Selected students spend **Day 1 at IIT Delhi**, exploring innovation labs, attending interactive entrepreneurship workshops, and meeting startup founders.

Day 2 at AIIMS Delhi introduces you to medical innovations, healthcare startups, and med-tech solutions shaping the future.

Participate in **hands-on problem-solving sessions** that challenge you to apply what you learn immediately.

Highlight:
Experience **real innovation** firsthand and get inspired by India's brightest minds.

Highlight: Celebrate your achievement and **showcase your talent on a national platform.**

Top students receive **prizes and mentorship sessions** with founders and experts.

All participants earn **prestigious certificates** jointly endorsed by IIT Delhi & AIIMS Delhi.

Get guidance on how to turn your **ideas into real-world projects** from experienced mentors.

Phase 4

Awards, Mentorship & Certification

Day 1: IIT Delhi **Engineering & Entrepreneurship**

1

Tech Lab Adventures:

Explore robotics, AI, and sustainable tech projects.

2

Startup Stories:

Hear from founders on how they turned ideas into real businesses.

3

Build & Create:

Practice design thinking, prototyping, and problem-solving.

4

Team Brainstorm:

Collaborate with peers on mini innovation projects.

Experience the energy of India's top engineering campus and think like a young innovator.

Day 2: AIIMS Delhi

Medical Innovation & Startups

1

Bio Lab Breakthroughs:

Explore medical devices, diagnostics, and life-science innovations and sustainable tech projects.

2

Med-Tech Startup Insights:

Learn how medical entrepreneurs solve real-world healthcare challenges.

3

Hands-On Med Experiments:

Try simulations and prototype experiments in healthcare tech.

4

Meet the Med Innovators:

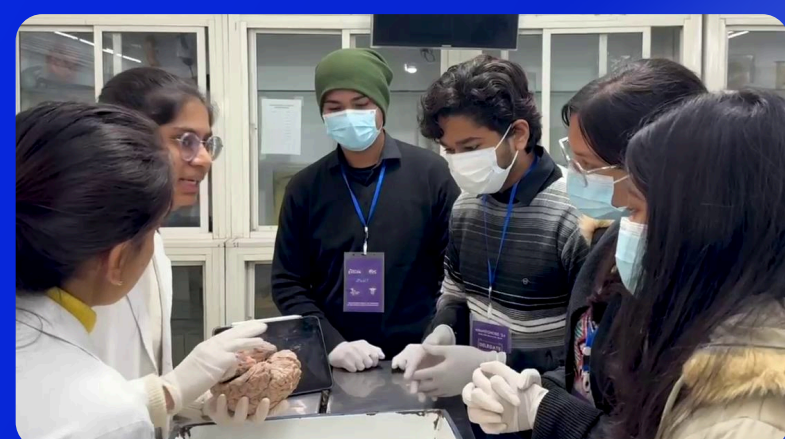

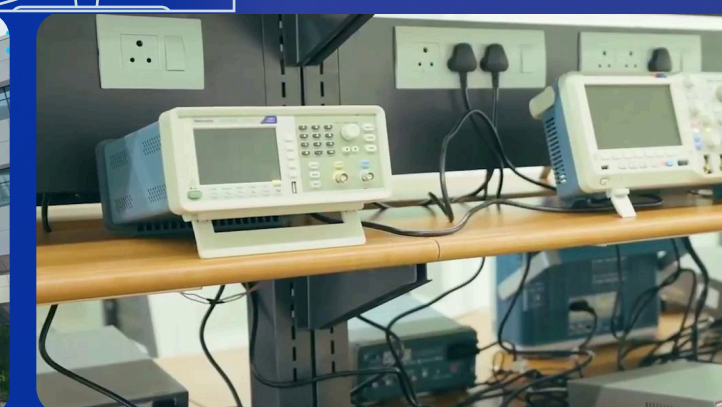

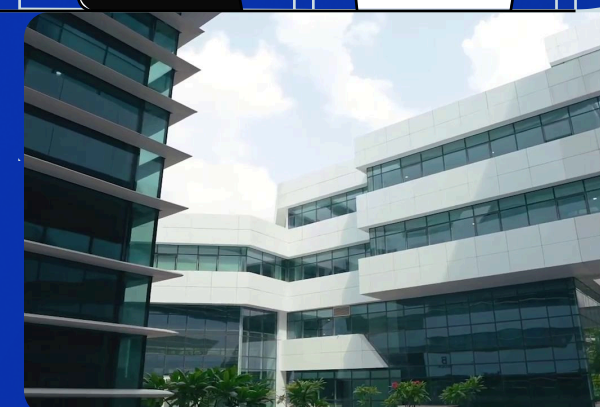

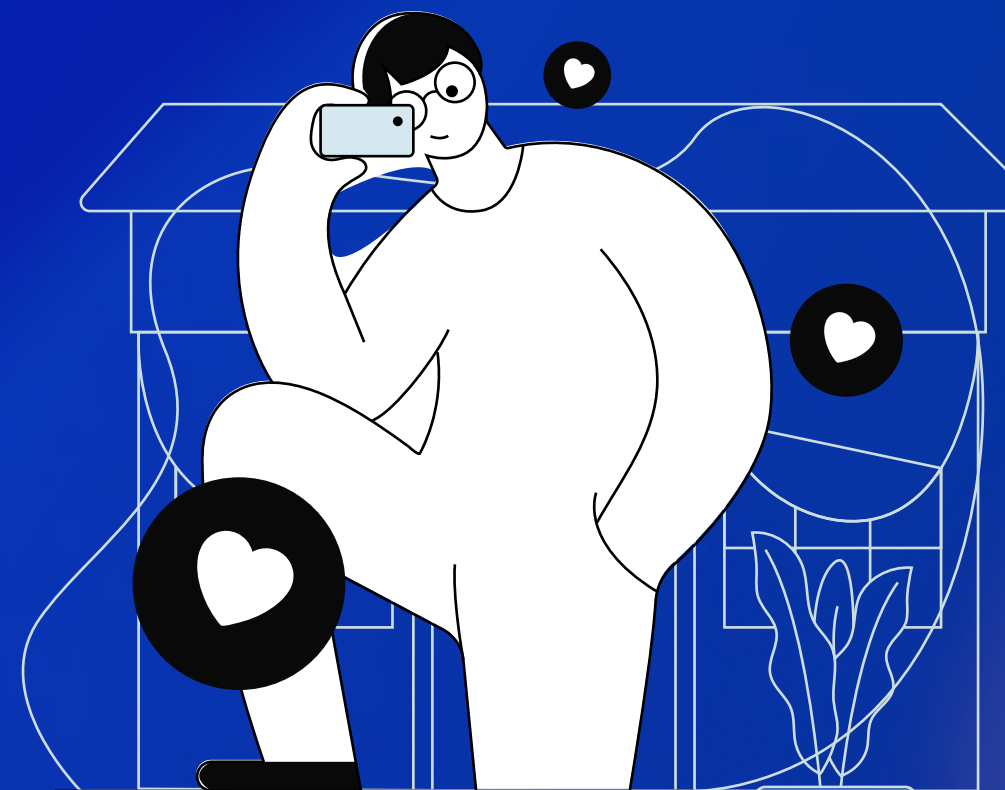

Hear inspiring journeys of founders and researchers shaping medicine.

See India's medical innovation up close and discover how ideas can change lives.

Glimpses from the Past Editions

Over the past years, **Anastomosis** has grown into one of the **most awaited platforms** for young innovators.

In the most recent chapter, Anastomosis witnessed **4000+** registrations from **200+** schools across India, with **50+** talented students visiting the **IIT Delhi** and **AIIMS Delhi** campuses.
